

Tokuyama computer wagons/ carts cater to the indispensable parts that are up to the doctors' and nurses' works in the fields.

- 1). Sturdy joint structure. No welding. The parts are fixed and assembled by metal rivets and nylon joints.
- 2). High hygiene standard, based on stainless steel.
- 3). Smooth castor work  $\phi$  100-125mm double wheels with nylon elastomer on top.

The above points assure the long operation life, 15 years and beyond.

※Middle plates heights are adjustable.
