

References guide: Tray/ Cabinet with Bar

Three main functions:
1). Worktable
2). Intravenous bottle dripping
3). Goods container

shallow & deep trays

The shallow and deep trays are interchangeable inside the cabinet. All inserted trays may be 4 deep trays or 8 shallow trays. Or, some combinations between the two according to the requirements. Other fancy features are:
A). Tray is neatly and easily partitioned by partition plates.
B). Cabinet allows trays to be pulled out either from the front or the back.
C). Castors of "Super Silent" model. Very smooth and quiet motion is secured.
