

Tray/ cabinet wagon

This newly-built hospital chose Tokuyama tray/ cabinet wagons used in the operation rooms.

*Features.

- 1). Of $\Phi 125\text{mm}$ wheels, "Super Silent" quiet castors secure smooth motion.
- 2). Shallow and deep trays are interchangeable. The unit box may contain all 8 shallow trays, 4 deep trays, or some combinations of the two.
- 3). Trays are pulled out from either side.
